#### Ldv Maxus Engine Faults

The maxus starting problems in the cold and the summer (where once started will start all day)are nearly always related to two items. Battery Starter motor. The crap batteries fitted to the maxus are only 750cca and are not up to the job. The proper ones are the same as in the link below. LDV Maxus (05-09) reliability, common problems & faults 3.5 out of 5 3.5 When the Maxus was launched in 2005, some raised serious concerns about the general build quality – shoddy paint jobs and ill-fitting fixtures among them. But the engineers at LDV have tried hard to address these problems and have improved things over the years.

#### LDV Maxus van review (2005-2009) | Parkers

LDV Maxus Engine code: R2516L VM39/40B 2.5CRD. I was called out to this vehicle, as it was causing the garage a lot of frustration. The vehicle is a 2008 LDV Maxus and these vehicles present a lot of problems for the independent repairers, as most of the aftermarket diagnostic scan tools, do not have good or reliable coverage of them.

The LDV Maxus is no spring chicken now and the WhatVan.co.uk used van locator reflects this, with most being around six years old or more. However, the prices, too, correspond, and it's a lot of van for £3000. A 2008 3.5-tonne Maxus 95 LWB will command £3000 or so with 120,000 miles on it.

### **Buying a used... LDV Maxus**

Still, this isn't entirely LDV-specific, as these kinds of problems are likely to happen with any old van. Quite honestly I think we just got the small prize out of the LDV lucky dip, and we kind of rushed into buying the van initially, but gradually we've managed to sort out every problem that's arisen so far and for the past 6 months we've ...

The LDV Maxus is a light commercial van model, originally produced by LDV Limited. It was launched in the end of 2004. The model was jointly developed under the LD100 programme code by LDV and Daewoo Motor, prior to Daewoo entering receivership in November 2000, in a five year, £500 million development programme. It was intended to replace LDV's Convoy model, and Daewoo Motor Polska's Lublin II ...
