Teaching And Learning Methods In

The term teaching method refers to the general principles, pedagogy and management strategies used for classroom instruction. Your choice of teaching method depends on what fits you — your educational philosophy, classroom demographic, subject area (s) and school mission statement. Teaching theories can be organized into four categories based on two major parameters: a teacher-centered approach versus a student-centered approach, and high-tech material use versus low-tech material use.

Teaching Methods

A teaching method consists of the principle and methods used by teachers to enable the students learning. The term 'Teaching method' refers to the general principle, pedagogy and management strategies used for the classroom program. The adoption of the method depends on the nature of the lesson and the personal ability of the teacher.
